Data Sources: Treasury yield levels sourced from Yahoo Finance (^IRX 13-week, ^FVX 5-year, ^TNX 10-year, ^TYX 30-year) and the Federal Reserve Bank of St. Louis FRED database (DGS2, DGS3MO, DGS10, T10Y2Y, T10Y3M, DFII10), stored in the Thor Storehouse (source: 'yfinance' and 'fred'). 10-year breakeven inflation is derived as the difference between the nominal 10-year Treasury yield (DGS10) and the 10-year TIPS real yield (DFII10). Percentiles computed against trailing 5-year daily history.
