JUNE 07, 2026 · API.USASPENDING.GOV — FETCHED 2026-06-07 12:04 UTC

What this report shows: How NCI cancer research grant money flows to institutions, states, and programs — sourced directly from the US Treasury USASpending.gov API. This is award-level data reported to Congress under the DATA Act.

How this differs from the NCI Fact Book report: The Fact Book shows spending *by cancer type* (breast, lung, pancreatic). This report shows spending *by institution and program* (who gets the grants, which states, which programs). The two reports are complementary — not duplicates.

FY2023 data: Covers October 2022 through September 2023. All figures are obligations — funds committed to grantees, not necessarily disbursed.

NCI CANCER PROGRAM OBLIGATIONS — USD MILLIONS

Annual obligations by NCI CFDA program number — figures reported to Congress in SAM.gov

• **Program mix:** Cancer Treatment was the largest NCI program category in FY2023, accounting for \$835M — 29.4% of total NCI cancer program obligations.

PROGRAM	CFDA	2019	2020	2021	2022	2023	2024	2025	% (2023)	CHANGE 2019→2023
All NCI Cancer Programs		\$2.44B	\$2.69B	\$2.53B	\$2.67B	\$2.83B	\$2.90B	\$3.25B	100%	▲ 16.1%
Cancer Cause & Prevention	93.393	\$596M	\$707M	\$623M	\$674M	\$694M	\$725M	\$796M	24.5%	▲ 16.5%
Cancer Detection & Diagnosis	93.394	\$390M	\$704M	\$412M	\$412M	\$448M	\$468M	\$514M	15.8%	▲ 14.8%
Cancer Treatment	93.395	\$607M	\$420M	\$704M	\$766M	\$835M	\$872M	\$957M	29.4%	▲ 37.6%

PROGRAM	CFDA	2019	2020	2021	2022	2023	2024	2025	% (2023)	CHANGE 2019→2023
Cancer Centers Support	93.397	\$656M	\$655M	\$576M	\$592M	\$634M	\$604M	\$742M	22.4%	▼ 3.3%
Cancer Research Manpower	93.398	\$192M	\$208M	\$213M	\$224M	\$224M	\$236M	\$236M	7.9%	▲ 16.3%

① 2024, 2025: figures are estimates as reported in SAM.gov CFDA records. Final obligated amounts are subject to revision.

Obligations in millions USD · Est = estimated figures from SAM.gov CFDA records · Change = 2019 to 2023

TOP NCI GRANT RECIPIENTS — FY2023

Institutions receiving the largest NCI cancer research grants

⚠ **Important:** The dollar amounts below are **cumulative lifetime values** of multi-year grants active during FY2023 — not what each institution received in FY2023 alone. A 5-year \$500M grant signed in 2020 still appears at \$500M here. These figures show the *scale of institutional commitment*, not annual cash flow. For annual spending by program, see the table above.

▪ **Funding concentration:** The top 10 institutions accounted for \$3.95B — 60% of the active NCI grant value across the 20 institutions shown.

#	INSTITUTION	LIFETIME AWARD VALUE	ACTIVE GRANTS
#1	Fred Hutchinson Cancer Center	\$526M	6
#2	Dana-Farber Cancer Institute, Inc.	\$455M	6
#3	Public Health Institute	\$423M	3
#4	The Johns Hopkins University	\$401M	7
#5	President And Fellows Of Harvard College	\$374M	3
#6	Ecog-Acrin Medical Research Foundation, Inc.	\$369M	3
#7	Sloan-Kettering Institute For Cancer Research	\$369M	4
#8	Icahn School Of Medicine At Mount Sinai	\$352M	4
#9	Nrg Oncology Foundation Inc	\$344M	3

#	INSTITUTION	LIFETIME AWARD VALUE	ACTIVE GRANTS
#10	Regents Of The University Of California, San Francisco, The	\$334M	5
#11	University Of Pittsburgh - Of The Commonwealth System Of Higher Education	\$304M	4
#12	The Univeristy Of Texas M.D. Anderson Cancer Center	\$302M	4
#13	St Jude Children'S Research Hospital Inc	\$282M	4
#14	Mayo Clinic	\$273M	4
#15	University Of Southern California	\$269M	3
#16	University Of North Carolina At Chapel Hill	\$267M	4
#17	Oregon Health & Science University	\$248M	3
#18	University Of California, Los Angeles	\$246M	5
#19	University Of Alabama At Birmingham	\$228M	3
#20	Trustees Of The University Of Pennsylvania, The	\$220M	2

Lifetime Award Value = cumulative value of active NCI grants at this institution · Active Grants = number of NCI grants active in FY2023

NCI GRANT OBLIGATIONS BY STATE — FY2023

Where NCI cancer research dollars flow geographically — top 15 states by total obligations

- **Geographic concentration:** The top 5 states (CA, NY, MA, TX, PA) received \$1.63B — 51% of all FY2023 NCI grant obligations. The remaining 44 states shared the other 49%.

#	STATE	OBLIGATIONS	PER CAPITA
#1	California	\$470M	\$11.89
#2	New York	\$375M	\$18.56
#3	Massachusetts	\$291M	\$41.39
#4	Texas	\$254M	\$8.72
#5	Pennsylvania	\$238M	\$18.30
#6	Washington	\$131M	\$17.06
#7	North Carolina	\$112M	\$10.73

#	STATE	OBLIGATIONS	PER CAPITA
#8	Ohio	\$105M	\$8.89
#9	Minnesota	\$100M	\$17.45
#10	Tennessee	\$99M	\$14.38
#11	Illinois	\$92M	\$7.20
#12	Maryland	\$87M	\$14.05
#13	Florida	\$80M	\$3.73
#14	Missouri	\$73M	\$11.93
#15	Michigan	\$67M	\$6.70

Per capita = obligations divided by state population (2020 Census) · Reflects place of performance

Data source: USASpending.gov API — api.usaspending.gov · US Department of the Treasury · DATA Act public data · CFDA programs: 93.393, 93.394, 93.395, 93.397, 93.398

CFDA obligations: Annual program totals sourced from SAM.gov Assistance Listings via the USASpending award detail endpoint. FY2024+ figures are estimates subject to revision.

Award amounts vs obligations: Recipient award amounts reflect cumulative lifetime grant values. State obligations reflect annual transaction-level spending. These use different methodologies and should not be compared directly.
